

**YOUR BUSINESS IN THE CLOUD.
IT'S THAT SIMPLE.**

CentralServer

WHAT WE DO?

Since 2000, we've provided managed cloud computing services that support business growth.

Our multi-cloud infrastructure and operations and solutions are developed through alliances with leading companies such as: **AWS**, **Azure** and **VMware**.

We work with customized projects, from the deployment to the support phase, allowing you to focus on your goals while using the cloud.

WHY CENTRALSERVER?

SO THAT YOU CAN MAXIMIZE THE BENEFITS OF CLOUD COMPUTING

We make it easy to provision, monitor and operate multiple clouds.

Run your applications on a virtual data center or in the public clouds with the support of our Experts.

Make your cloud spend more predictable. Achieve greater security and scalability.

SOLUTIONS

CLLOUD.DCV

VMware© Virtual Data Center that allows you to deploy and control cloud servers using a self-service panel.

CLLOUD.APP

Ready to use application platform on AWS© that offers scalability, security and predictable costs.

(*) Reduce cloud costs by reserving resources for a period of 1 or 3 years.

CLLOUD.OPS

24x7 Monitoring and Operations Center that supports applications in the cloud and frees up your team.

BC/DR

Protection of mission critical applications with business continuity and disaster recovery services.

SERVICES

CONSULTING SERVICES

Cloud architecture, performance analysis and optimization.

PROTECTION AND SECURITY

Backup of virtual machines with Veeam[©], malware protection with BitDefender[©], network firewall, VPNs, monitoring with Site24x7[©].

MIGRATIONS AND DEPLOYMENTS

Workload migration and deployments on AWS[©] and Azure[©] clouds.

BILLING AND COMPLIANCE

Amazon AWS* and Microsoft Azure billing and invoicing (* includes **CloudCheckr**[©] license).
